PROFILE

As a software developer with 6 months of experience, I am passionate about designing and developing engaging user experiences that meet and exceed client expectations. My technical proficiency in React.js, HTML, CSS, ES6, and PHP has allowed me to build robust and responsive websites that are visually appealing and functional.

I thrive in fast-paced environments, and I'm always eager to learn and expand my skill set. My detail-oriented approach to problem-solving has enabled me to identify and fix bugs in code, resulting in increased site functionality.

If you're looking for a reliable, motivated, and dedicated front-end web developer with a passion for user experience, please don't hesitate to contact me.
